Problem Gambling Skill Set

WHY STUDY THE PROBLEM GAMBLING SKILL SET?

Most financial counsellors work with clients impacted by problem gambling; sometimes you may not know but it becomes clear over time; other times we don't ask the question because we don't quite know how, or the client does not disclose.

It's specialist work and needs additional knowledge and a specific approach. It's vital to understand the psychology of gambling and the surrounding landscape and how to engage effectively with your client

to ensure that they get effective and safe service.

Problem gambling is a complex issue and often involves others (family, friends, or significant others) and is frequently linked to other health and psychological (comorbid) issues. It's important to know how to work to empower the client for change without causing harm.

WHAT SKILLS WILL STUDENTS GAIN?

This course is a nationally accredited skill set that gives students knowledge and information about

the gambling landscape, comorbid issues, harm minimisation, specific needs in diverse communities that relate to gambling, protection of assets as well as counselling responses and therapeutic interventions used to assist people to manage and recover from gambling harm.
